

Creating a Secure Environment on Facebook

Senior Computer Users
Group of Greater KC

April 12, 2024

Facebook

- This presentation is brought to you by APCUG's Speakers Bureau
- A benefit of your membership in APCUG
- Your presenter is Judy Taylour
 - Member of the Speakers Bureau
 - APCUG Advisor – Regions 1, 5, 9, 10, and International
 - President, SCV Computer Club in SoCal

Social Media Used by Seniors

Social Media Use by Older Adults

Why Use Facebook?

- Friends and family who want to stay in touch
- People looking for long-lost friends
- Hobbyists looking for others who share their interests
- Keeping up with the latest news and events
 - Share opinions on those events
- Can interact with large numbers of people without interacting with each one personally
- Effective and efficient communication

Why Use Facebook?

Least secure social media app

- TikTok?
- Snapchat?
- Instagram?
- Twitter/X?
- Facebook?
- YouTube?
- WhatsApp?
- LinkedIn?

Least secure social media app

- PCMag – University of New South Wales Sydney
- Social media users – US, UK, and Australia
 - 66% - Facebook
 - 63.1% - TikTok
 - 53% - Instagram
 - 53% - Snapchat
 - 47% - X/Twitter
 - 40% - YouTube
 - 37% - LinkedIn

Creating a Facebook Page

- Create an email address for your Facebook account
- Creating your FB account
 - Do you want to include your maiden name Judy Smith Brown or Judy Brown
 - Create a strong password
 - Don't sign into a third-party website with your Facebook, Google, etc. credentials
 - Gives that company permission to share your Facebook user data

You and Your Passwords

- Longer is better
- 12 characters at a minimum
 - Includes numbers, symbols, capital Letters, and lower-case letters
 - Doesn't use obvious substitutions (0 for O) - \$\$ for ss
 - Isn't a dictionary word or combination of dictionary words
- Password-guessing tools submit hundreds or thousands of words per minute.
- If a password is anything close to a dictionary word, it's incredibly insecure.

You and Your Passwords

- Worst passwords
- #12 qwerty123
- #13 1q2w3e4r
- #15 qwertyuiop

How Secure Is My Password?

👍 The #1 Password Strength Tool. Trusted and used by millions.

?NhrB-CoJ-M2mg#26

It would take a computer about

3 quadrillion years

to crack your password

You and Your Passwords

Check if your email address has been leaked

- Have I Been Pwned most popular site for email and password monitoring
- In existence since 2013 - largest single breach at the time - 38 million Adobe users
- Enter your email, and the site will list any breaches your email has been part of.

The logo for 'Have I Been Pwned' is displayed within a dark blue rounded rectangle. It features a white border and the text 'have i been pwned?' in a lowercase, sans-serif font. A small white icon of a person with a question mark above their head is positioned to the left of the text.

';--have i been pwned?

Check if your email or phone is in a data breach

Who Created Have I Been Pwned (HIBP)

- Troy Hunt, a Microsoft Regional Director and Most Valuable Professional awardee for Developer Security, blogger at troyhunt.com, international speaker on web security and the author of many top-rating security courses for web developers on Pluralsight.
- Created as a free resource for anyone to quickly assess if they may have been put at risk due to an online account of theirs having been compromised or "pwned" in a data breach.

Generate secure, unique passwords for every account

Facebook Tips

Records Leaked Online Again

- 2019 - personal data from over 300 million Facebook accounts stolen
- Previously sold in the dark web between malicious bad actors.
- Considered by some as one of the worst data breaches of all time
- 2021 - released for free on a low-level hacking forum (over 500 million breached)
- Easy access for anyone with basic knowledge
- Didn't include your phone number?
 - Phone numbers p
- Profile> > > > > > >

Mobile Settings

A current mobile number helps you reset your password easily and receive SMS notifications. It also helps us suggest friends and provide and improve ads for you and others. Only you will see your number. [Learn More](#)

You can also update your status, search for phone numbers, or upload photos and videos from your phone.

[+ Add a Phone](#)

Already received a confirmation code?

[Confirm](#)

Records Leaked Online Again

- What info was stolen?
 - Full Names
 - Phone numbers
 - Facebook IDs
 - Location
 - Birth date
 - Bios

Check if your phone number has been leaked

- Facebook phone number leak — US

Facebook phone number leak — US

533 million Facebook users' phone numbers and personal data have been leaked online

This includes 32,315,281 American phone numbers.

Phone numbers are associated with Facebook account IDs, name, gender and sometimes other data Facebook has, such as location, workplace and relationship status.

Does your US phone number appear in the data?

Enter your phone number (just the digits, in the international format 1?????...).

+

CHECK

+ 166'

CHECK

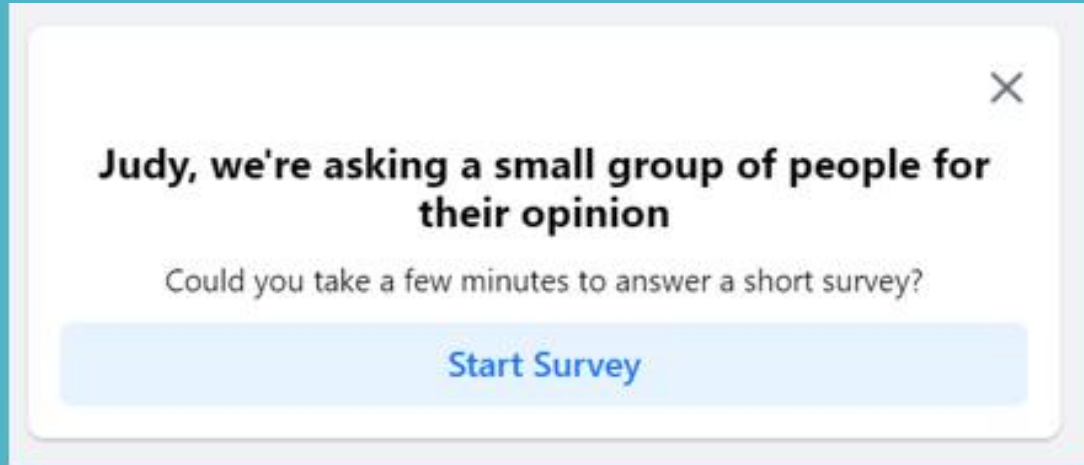

Result: Your phone number is not in the data 😊

I'm not saving the phone number you enter. New: there is now a more secure version of this.

Surveys.....Quizzes

- Even if your best friend posts a survey or quiz, don't participate
- Bad actors create *quizzes/surveys/find the M in a gazillion W's and you are a genius* posts to acquire your private information
- Can hack your accounts or steal your identity using personal information that Facebook provides them
- May take you to a website with dangerous downloads
 - Install malicious browser extensions
 - Harmful links
 - Malware

Surveys.....Quizzes

Hmmm... can't reach this page

Check if there is a typo in inventorybag.com.

If spelling is correct, [try running Windows Network Diagnostics.](#)

DNS_PROBE_FINISHED_NXDOMAIN

Games

- Social gaming is popular, can lead to
 - Stealing your information
 - Malware
 - Phishing scams
 - Hacking
 - Prevent apps from being enabled on your Facebook account
- Settings > Privacy > Apps and Website links > Edit
- Click Turn Off button

Fact vs. Fiction

- False information thrives online
- Links to news stories, web pages, wild claims, and hoaxes that don't seem right
- Someone posts the latest piece of misinformation and, seconds later, it can spread around the world.
- Going viral – circulated via social media to a large number of people

Fact vs. Fiction

- Just because someone says something doesn't make it true
 - Fake news
 - Outright lies
 - Conspiracy theories
 - Propaganda
 - Biased News
 - Opinions
- Common sense

Fact vs. Fiction

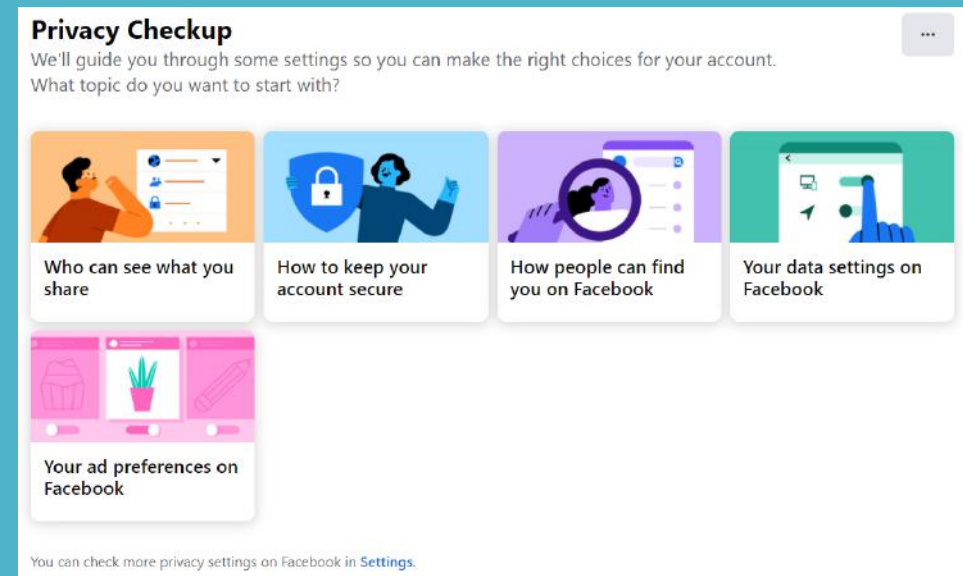

- Check it out before you share it
- Go to the original site
- Factcheck.org
- Snopes
- Don't engage with it
 - Facebook algorithms will show you more
- Bottom line – only follow reputable news outlets

Using Social Media Safely & Privately

- Is it safe to use social media?
 - Like any website, posts on social networking sites can contain links
- Malware
- Spam
- Phishing
- ID Theft
- Robbery
 - Don't post that you are going to be out on a certain evening, or on vacation....
 - Post your pictures when you return home

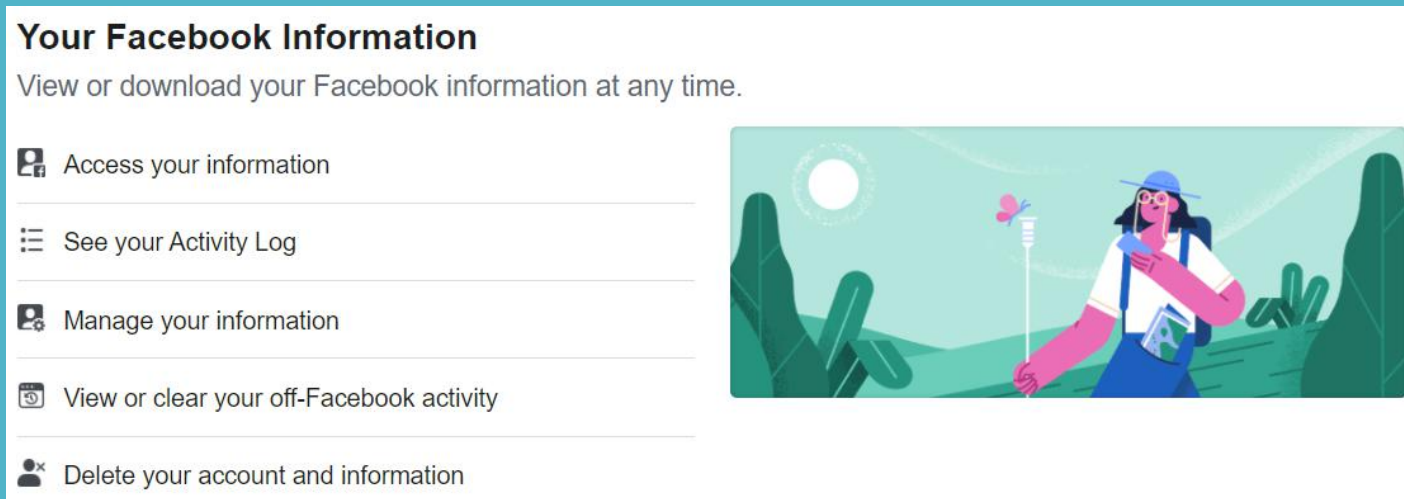

Using Social Media Safely & Privately

- Facebook settings can be complicated
- Like customizing Windows 10/11, go through every one of the settings so Facebook works how you want it to
- Do a privacy checkup -

Facebook Tracking Data

- Facebook collects data even when you are not on Facebook
- Apps, websites, and other services send Facebook information about what you are doing on the Internet
- Off-Facebook Activity gives you a look at some of that data
- Settings & Privacy > Privacy Shortcuts > View or clear your Off-Facebook activity > Manage Your Off-Facebook Activity

Facebook Tracking Data

Off-Facebook Activity

Off-Facebook activity includes information that businesses and organizations share with us about your interactions with them, such as visiting their apps or websites. [Learn More](#)

Ralphs.com, Actblue.com and other websites or apps have shared your activity with Facebook.

What You Can Do

Manage Your Off-Facebook Activity

View activity shared with us by the businesses and organizations you visit off of Facebook.

Clear History

Disconnect off-Facebook activity history from your account.

Access Your Information

View your information by category

Download Your Information

Download details of your off-Facebook activity

Manage Future Activity

Choose whether your off-Facebook activity is saved with your account

Keep Your Location to Yourself

- Facebook admits it uses location data from your device
- Uses network connection to approximate where you are for advertising purposes
- Turn off Facebook app's location permission on your iPhone or Android phone, data available will be less precise

Location History

Turn on Location History for your mobile devices?

Off

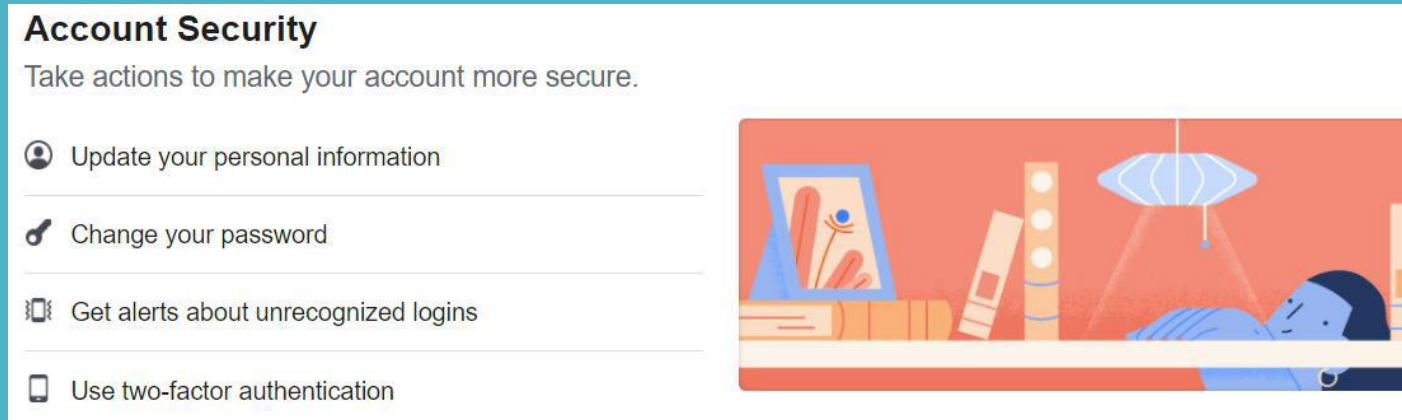

[Edit](#)

Location History is off. Turning on Location History lets you explore what's around you, get more relevant ads, and help improve Facebook. It allows Facebook to build a history of precise locations received through your device. Your Location History is private and secure. You can manage it in your location settings at any time.

Protect Your Account from Hackers

- Turn on 2FA (two-factor authentication)
- Backs up your password
- Verifies your identity by sending code via text or app
- Settings & Privacy > Privacy Shortcuts > Account Security > Use two-factor authentication

Protect Your Account from Hackers

Help Protect Your Account

If we notice an attempted login from a device or browser we don't recognize, we'll ask for your password and a verification code.

Select a Security Method

Authentication App

Recommended · Use an app like Google Authenticator or Duo Mobile to generate verification codes for more protection.

[Use Authentication App](#)

Text Message (SMS)

Use text message (SMS) to receive verification codes. For your protection, phone numbers used for two-factor authentication can't be used to reset your password when two-factor is on.

[Use Text Message \(SMS\)](#)

Hide Account from Google and Other Search Engines

- Settings & Privacy > Privacy > How people find & contact you > Do you want search engines outside of Facebook to link to your profile? > Edit
- Click check box > Turn Off

Do you want search engines outside of Facebook to link to your profile?

When this setting is on, search engines may link to your profile in their results.

When this setting is off, search engines will stop linking to your profile, but this may take some time. Your profile can still be found on Facebook if people search for your name.

☐ **Allow search engines outside of Facebook to link to your profile**

Are you sure?

Turning this off means that your friends may not be able to find your profile if they use a search engine outside of Facebook.

Turn Off

Cancel

Restrict Facebook from Tracking Your Activity on Other Websites

- Install an ad blocking extension
- Privacy Badger
- Chromium websites – Chrome, Edge, Avast
 - Adblock / Adblock Plus
- Firefox – Facebook Container extension
- Opera – Ad blocker built into browser
- Vivaldi – Integrated Ad Blocker
- DuckDuckGo - Settings > General tab > Advertisements
- Brave blocks all ads by default

Using Social Media Safely & Privately

- Think before you click or tap
- Think before you post
- Don't accept every friend request—decline the request
- Unfriend people whose posts you don't like, agree with....
- Keep your contacts private
- Don't download 3rd party apps
- Don't play social games
- Don't find that M that makes you a genius
- Trust your instincts

Probably Shouldn't Share Online

- Consider the Golden Rule
- When posting to social media, following the online golden rule: Post only about others as you would have them post about you. If you can't say something nice, don't say anything at all.
- As a wise friend once said....Don't post anything on social media you wouldn't hang on your front door for everyone to see.

How Does Facebook Use your Information

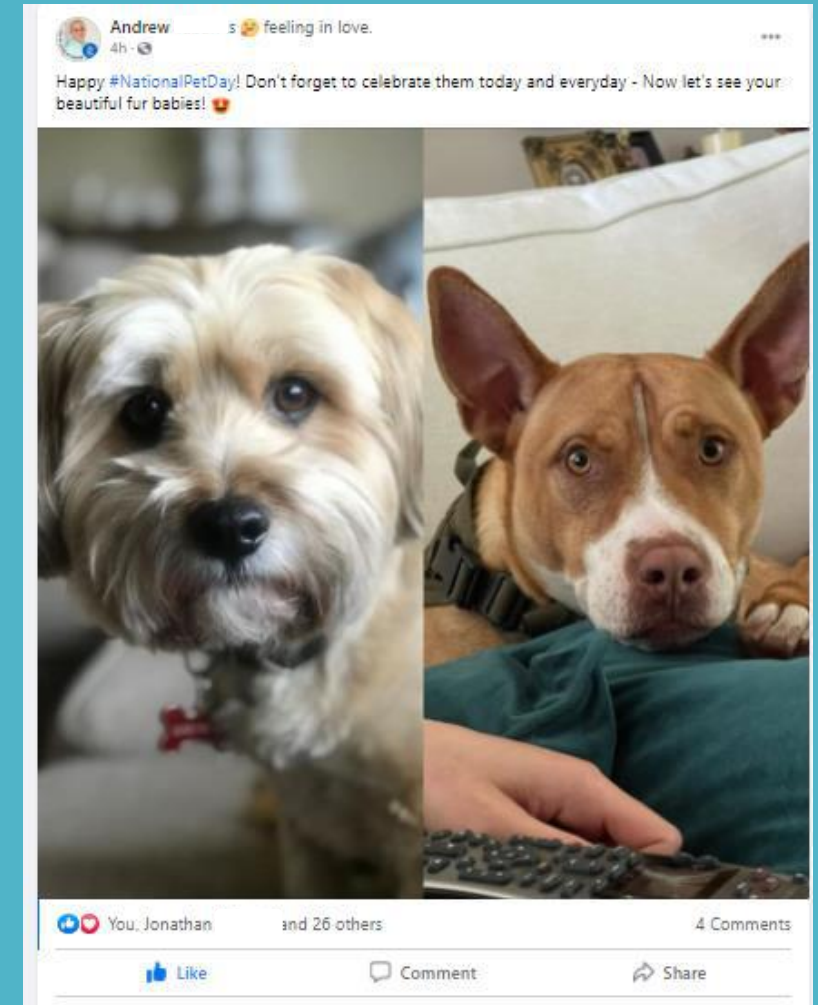

- Personal information you provide can be used in various ways
- Profile - Age, gender, education....
 - Display 3rd party ads
 - Use your interest information to
 - Play a certain game
 - Join a group
 - Add someone as a friend
- There are many ways your personal information can be used legally = read Facebook's privacy policy

What to Share & Not to Share

- Keep it
 - Short
 - To the point
 - Casual
 - All CAPS is still considered yelling
- Don't get sloppy
 - Use good grammar and punctuation
 - Don't have to use full sentences
 - OK to use common abbreviations and acronyms
 - LOL – BTW.....
- It's not a blog post

How Often Should I Post?

- Social media creates communities
 - To be a member you need to actively participate
 - Wait too long between posts and people will forget about you
- Post too frequently
 - Overbearing or annoying
 - Wear out your welcome
- Facebook – once a week / few times a day

10 Things to Avoid when Posting Online

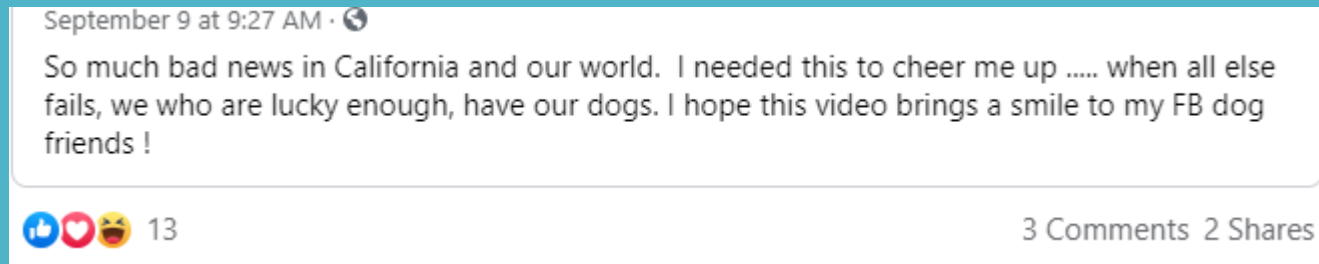

1. Don't post if you don't have anything to say
2. Don't post personal information
3. Don't post personal contact information
4. Don't post your constant whereabouts
5. Don't post rumors, hoaxes, and urban legends
6. Don't post about people without their permission
7. Don't post photos of your kids, grandkids – yours or others without permission—remove location information
8. Don't post sensitive information
9. Don't post other people's news...let them do it
10. Don't post strong political or religious opinions

Commenting on a Post

- Do comment when input is asked or encouraged
- It's polite to respond to people who comment on your post
- Don't comment if it is just a "Me too" or "You bet"
- Do comment if you have knowledge or useful information to share
- Do support a friend—sometimes a comment can be like a virtual hug
- Do make a comment if you can move it forward, by providing additional information or viewpoint

Commenting on a Post

- Do comment when input is asked or encouraged

Beware

- Scammers are making virtual copies of real Facebook accounts by copying the photos, etc.
- They then send friend requests to the friends listed on the real account.
- There are countless ways you can be scammed because we tend to trust our 'friends.'
- If you receive a friend request from someone you are already friends with, search your friend list to see if you are still friends with that person.
- If you are, you have just received a friend request from a duplicate (and probably fake) Facebook account.
- Delete the request

Are you using Facebook on your phone?

- Facebook sometimes requests access to the mic for video-chatting and text-to-speech purposes.
- But you don't want to give Facebook control of your mic
- Stop it....
- iPhone > Settings > Toggle the green switch next to microphone to off
- Settings > Privacy > tap Microphone > find Facebook in list of apps > toggle the green switch off
- Android > Settings > Personal > Privacy and Safety > App Permissions > Microphone > Facebook > toggle slider to off
- Want to shoot video or chat with a friend, switch the mic on again

Key Takeaways

- Passwords – Longer is better
- Turn on 2FA
- Have I been pwned?
- Don't sign into a third-party website with your Facebook credentials
- Tagging a person makes the photo visible on that person's Timeline—even if he/she doesn't want anyone to see it
- Tagging a person without permission can cause all sorts of problems

Key Takeaways

- Even if your best friend posts a survey or quiz, don't participate
- Bad actors create quizzes/surveys/find the M in a gazillion W's and you are a genius posts to acquire your private information.
- False information thrives online
- Check it out before you share it
- Facebook collects data even when you are not on Facebook
- Apps, websites, and other services send Facebook information about what you are doing on the Internet

Key Takeaways

- Choose your audience for posts
- Limit who sees your profile, photos, and posts
- Keep your location to yourself
- Don't accept every friend request – feel free to decline
- Don't post anything on social media you wouldn't hang on your front door for everyone to see.
