

Steps to install Windows 11 Home without a Microsoft account

Step 1: Once you [install Windows 11](#), your PC restarts and you arrive at the Windows Out of Box Experience (OOBE).

Step 2: Follow the steps until you get to the “Add your account” screen which prompts you to sign in to your Microsoft account or create one if you don’t have one.

Step 3: Now you need to enter an email address that does not exist, for example, d@d.com, then click Next.

Step 4: Type any password, for example, 1, then click Connect.

Step 5: The “Sorry, an error has occurred” error message will appear; Click on Next.

Step 6: Choose don’t sign with a Microsoft account and click Next.

Step 7: You can now create a local user account and continue with Windows 11 setup.

That’s it; You have installed Windows 11 OS with a local user account and without a Microsoft account.
